

Where to for Super Rugby?

Geschrieben von Joe Clark - 20.08.2017 20:59

I think that it is widely agreed that the current Super 18 model is flawed on so many levels; the draw is confusing, the conferences unbalanced, the finals system is incomprehensible. Crowds in South Africa are down (Ellis Park looked almost empty yesterday on a fine sunny afternoon in what was a pretty good game). Crowds in Australia are down. Playing standard in both Australia and South Africa is well below that of the NZ teams - surely not a healthy situation for any of the SANZAAR partners, including NZ?

Please Help !

Thanks !

I didn't find the right solution from the internet.
